Description:

This part-time degree program is designed for experienced managers and executives. It combines scientifically based business knowledge with practice-oriented teaching and offers the opportunity to further develop one's own management skills.

What is this course about?

The Executive MBA is aimed at managers and executives with professional experience. In addition to providing in-depth business knowledge, we place particular emphasis on the personal development of participants. In the Executive MBA ...

- our participants learn at the cutting edge of international high-level research and evidence-based teaching.

- our participants benefit from our partner foundations and companies and the close integration with practice.

- gain cross-cultural experience through international issues, international groups and a study abroad module at Tsinghua University in Beijing, China.

our participants develop personally and as leaders through an individual leadership profile and mentoring program

our participants build sustainable international networks.

The Executive MBA can be started twice a year, in the summer and winter semester and consists of 11 modules (9 compulsory modules and two of the four elective modules). It includes a personal and leadership development program. The program consists of 56 days of classroom teaching + approximately 11 days of individual learning.

Quality and competences:

In the course of the program, participants gain an overview of entrepreneurial processes. In addition to professors from the UUT School of Management, experts and top executives from numerous companies and organizations complement the interdisciplinary and intercultural learning. In this way, participants benefit from the research strength of the participating universities and the close practical relevance provided by the partners involved. In the personnel and leadership development program, participants work in small groups or individually on their personal leadership behavior and continuously develop themselves in an interactive exchange with our experts. The aim is to prepare them for extensive leadership tasks in companies and organizations.
