

# Branch: Business Administration

**Code:** FIANTA

**Option:** Finance, Accounting and Taxation

**Level:** Master

**Prerequisites:**

**Opportunities:**

**FINANCIAL MANAGER (M/W/D)**

As a Chief Financial Officer (CFO), you are one of the members of a company's management team and are responsible for all financial operations. Your responsibilities include managing funds, signing chequers, bookkeeping and planning the finances and cash flow of the organization. You develop strategies to optimize processes in your department and ensure that the management has an overview of the company's financial situation at all times. **MANAGER:**

**ACCOUNTING (M/W/D)**

As head of accounting, you and your team are responsible for the day-to-day accounting and timely preparation of a company's financial reports. You plan and monitor business processes, prepare financial data and use it to create key figure analyses for business management as well as reports and statistics. You will be responsible for management tasks and will be the contact person for banks, auditors and tax advisors.

**HEAD OF TREASURY (M/W/D)**

As a treasury manager, you and your team keep an eye on the finances of your company. You make sure that there are always enough funds available to keep the organization running. At the same time, as treasurer, you look to the future

and underpin your company's finances with long-term funding strategies and forward-looking cash management. As companies grow and expand internationally, their finances need to grow with them - you keep an eye on all this.

**Description:**

You will learn to use management instruments and solutions in a strategically targeted manner and thus become a key figure who can be flexibly deployed for the continuous and sustainable growth of companies in all sectors. During your studies, you can specialize in exactly the way you want - to take up management positions in the fields of management consulting, corporate and investment finance or strategic financial management.

**Specific competences**

Finance has always fascinated you. Your Bachelor's degree has given you the basics, but you want more. A key position in financial planning and accounting is your goal. Set out on this path with the Master's program in Finance, Accounting and Taxation at UUT.

**Quality and competences:**

You will acquire solid methodological skills and an in-depth knowledge of the scientific and economic contexts of finance, accounting and taxation in national and international companies.
